

I would appreciate if you would keep the strict DO NOT CALL list in place. Before the do not call list, I would receive up to 20 calls a day from solicitors. I work as a nurse on the night shift (1900-0730) and have to sleep during the day. I should not be forced to turn off my phone, in my house, in order to sleep. In an emergency I am unable to be contacted. I pay taxes and I should have a right not be harassed in my own home. Please let each New Jerseyan decide if they want to be contacted by solicitors. Those who do not mind the endless phone calls don't have to sign the Do Not Call List. We as Americans live in a country where democracy and freedom of choice rules the country. I choose to be on the DO NOT CALL LIST. It's my choice and no company should have the right to make that choice for me.
